

THE BEEKMAN SCHOOL

2026 SCHOOL PROFILE

George Matthew founded The Beekman School/The Tutoring School in 1925. The school was organized to offer a preparatory-school curriculum with all the advantages of highly personalized instruction. Since no two students have the same abilities, learning styles, or goals, teaching is geared specifically to the needs of the individual student. In addition to having small classes, The Beekman School combines a traditional, college-preparatory academic education with a flexible yet structured approach. The Beekman School is accredited by the Middle States Association and registered with the Board of Regents of the State of New York. In addition, Beekman is a member of the College Entrance Examination Board and the Educational Records Bureau, and an associate member of the New York State Association of Independent Schools.

The Tutoring School is a unique program within The Beekman School that specializes in educating students who require private or semiprivate classes. The Tutoring School teaches college-level courses as well as standard and remedial courses. Generally, incoming students follow The Beekman School's college-preparatory curriculum and receive credit from The Beekman School.

The requirements of the New York State Education Department form the core of the curriculum at The Beekman School/The Tutoring School. It is strongly advised, however, that students exceed these requirements, especially in the areas of mathematics, the sciences, and languages. The Beekman School offers three approved AP Courses (U.S. History, English Literature & Composition, and Calculus AB) three of which are available to Beekman students. The faculty at The Beekman School has also developed many interesting and challenging elective courses such as Psychology, Anatomy & Physiology, Game App Development, Creative Writing, Modern Politics, International Politics, Digital Photography, Coding, Electronics, Philosophy, Sociology, Astronomy, and The Real Game of Thrones. In addition to the wide variety of courses offered at Beekman, students may enroll in elective courses at outside institutions such as the New York Guitar School, the International Center of Photography, FIT, the Art Students League, Parsons School of Design, and the School of Visual Arts. Beekman students also participate in after-school activities such as the literary magazine, yearbook projects, student council, and volunteer programs. www.beekmanschool.org
